

Anathea Fenton

Falkbuilt Halifax Ltd.

Anathea is regarded as an off-site construction specialist having planned and delivered hundreds of projects throughout North America from initial planning and design assist, to project management and oversight of installation. She developed this extensive knowledge through her 20+ years as an employee with SMED International and DIRTT Environmental Solutions. An entrepreneur at heart, she went from employee to business owner, by founding the local branch for Falkbuilt Ltd in 2020, which is now recognized as one of the top performing branches in North America.

She is a Member and Past President of the Nova Scotia Design and Construction Institute (DCI) and is a past Member of the Pre-Manufactured Think Tank for BIM Canada (now known as Building Transformations). Highly respected within the local design and construction industry, she has been the recipient of the Distinguished Member Award by the Nova Scotia Design and Construction Institute for her commitment and contribution to the industry.

Most importantly, Anathea is the very proud mom of two daughters, Lauren and Julia. She loves travel, amateur photography and the daily Wordle challenge.
